

Installation Guide

Power BI

System Requirements: Windows

- Windows 8.1 or Windows Server 2012 R2 or later.
- Microsoft Edge browser (Internet Explorer is no longer supported)
- Memory (RAM): At least **2 GB** available, **4 GB** or more recommended.
- Display: At least **1440x900** or **1600x900** (16:9) required. Lower resolutions such as 1024x768 or 1280x800 aren't supported because some controls (such as closing the startup screens) display beyond those resolutions.
- CPU: 1GHz 64-bit (x64) processor or better recommended.

Click on this [link](#) to know the system requirements in detail.

Power BI Desktop is not available for Mac and Linux.
